

ITlib – Informačné technológie a knižnice is a peer-reviewed scientific and professional journal published by the Slovak Centre of Scientific and Technical Information (CVTI SR). It focuses on current topics in the field of library and information technologies, information science, digitalization, long-term archiving, and research evaluation.

The journal is published twice a year (in June and December), with a print run of 200 copies per issue. Its readers and subscribers primarily include:

- Public, academic, and research libraries
- Academic and research institutions
- State and public administration authorities
- IT specialists and information science experts

Thanks to its well-defined target audience, advertising in *ITlib* is an effective way to promote services, products, or professional events in areas such as information science, digitalization, technological innovation, and library equipment.
